## A touch of Hollywood

Hello and good afternoon dear business partner,  
Dear fans of Optimodal Nederland B.V,

We are very happy to present our first image film online today.

We have put a lot of effort into developing a slightly different kind of film and also attached great importance to making the difference between an image film and an advertising film recognizable.

In order to enjoy the work to the full, we recommend the use of a Dolby Surround system 🎧.

And: Be sure to watch it to the end.

Lean back, put your feet on the desk and let the film take you into our intermodal, exciting world.

Our best wishes accompany you, your loved ones and colleagues through the exciting Corona time.

With best regards from Hollywood, respectively Hamburg, Rotterdam and Neuss

Your Optimodal Team
