Blockage and access harbour Neuss Hessoror

Dear customer,

We've received the information that an unavoidable closure is necessary in connection with the planned DB construction work on the line between Neuss GBF and Neuss Hessoror.

The Public Order Office has decided to carry out this closure

from 04.10.2023, 06:00 hrs to 06.10.2023 08:00 hrs,

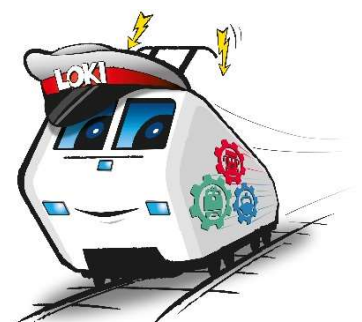

so that the explosive ordnance disposal service can clear a suspected site.

During this period, train connection to and from our terminal partner to the Neuss GBF and vice versa is not possible.

According to the current status, the following train connections need to be cancelled due to the closure:

RAIL-departure Rotterdam-Neuss		IMPORT	Period 04.-06.10.2023	RAIL-departure Neuss-Rotterdam		EXPORT	Period 04.-06.10.2023
