Construction work Emmerich - Oberhausen

Dear customer,

Due to construction work between Emmerich - Oberhausen

from Friday, 22.01.2020 to Friday, 29.01.2021

this path is only a one-way direction and therefore most of the trains will be re-routed via Venlo.

This re-routing will lead an estimated delay of arrival of 150 minutes as well as to shorter slot times and a reduction of the agreed moves with the seaport terminals.

Therefore, following trains must be cancelled:

RAIL Rotterdam-Neuss-Rotterdam			
Rotterdam-Neuss		Neuss-Rotterdam	
Date		Date	
26.01.2021	09:56 hrs	25.01.2021	00:30 hrs

The following schedule therefore results for week 4:

If we receive further reductions of our moves by the seaport terminals, further cancellations may occur. Due to the above-mentioned circumstances, it is quite possible that we will not be able to guarantee you the usual reliable service quality without restrictions. However, we can guarantee that we will use all our possibilities to handle your container transports in the best possible way. We thank you in advance for your understanding.

We thank you in advance for your understanding.

With kind regards,
