

Rotterdam, 02.02.2023

Construction work on the track near Emmerich

Dear Customer,

We hereby inform you that due to construction work, the Emmerich - Oberhausen line will be closed the entire time
from Friday 10.02.2023, 21:00 hrs until Friday 24.02.2023, 21:00 hrs.

As you know, this also affects the train service we offer.

All trains will be rerouted via Venlo. Due to this rerouting, there will likely be delays in departures and arrivals in Rotterdam. This in turn will lead to shorter slot times and a reduction in the number of hubs agreed with the seaport terminals.

As things stand, the following connections will have to be canceled due to these road works:

RAIL Rotterdam-Neuss-Rotterdam

Please consider the cancellations and the changed departure and arrival times in your planning.

If the number of hubs at the seaport terminals is actually further reduced, the possibility exists that we may have to cancel additional connections or terminal appointments.

Due to the above circumstances, we may not be able to fully guarantee the high and reliable punctuality of our train services to which you are accustomed. However, we can guarantee you that we will use all our possibilities to handle your container shipments in the best possible way.

We will of course inform you of any changes as soon as possible and thank you in advance for your understanding.

And thank you in advance for your understanding.

Kind regards

Optimodal Nederland B.V.
