## Rail-Schedule regarding short-term construction work

Dear customer,

On the part of DB Netz, we were surprised with a short-term announced construction site in the area of Oberhausen Mathilde from 04.10.-29.10.2023. Here, urgently needed work on the central switches must be carried out. Further it says in the communication of DB Netz that this short-term date had to be chosen out of the constraints of the plant condition.

Fortunately, our trains are affected only in the period from 23.10. - 29.10.2023.

All trains will be rerouted via Venlo. Due to this rerouting, there will likely be delays in departures and arrivals in Rotterdam. This in turn will lead to shorter slot times and a reduction in the number of hubs agreed with the seaport terminals.

Please find as follows our rail schedule (changes: highlighted in red) for your planning.

RAIL-departure Rotterdam-Neuss		IMPORT	Weekdays in the period 23.10.-29.10.2023	RAIL-departure Neuss-Rotterdam		EXPORT	Weekdays in the period 23.10.-29.10.2023

Please consider the cancellations and the changed departure and arrival times in your planning.

If the number of hubs at the seaport terminals is actually further reduced, the possibility exists that we may have to cancel additional connections or terminal appointments.

Due to the above circumstances, we may not be able to fully guarantee the high and reliable punctuality of our train services to which you are accustomed. However, we can guarantee you that we will use all our possibilities to handle your container shipments in the best possible way.

We will of course inform you of any changes as soon as possible and thank you in advance for your understanding.

Kind regards,

Optimodal Nederland B.V.
