Water level | low water surcharge (LWS)

Dear customer,

As reported in our earlier message dated 07.09.2020 the water level at Duisburg-Ruhrort continue to be at a level causing a reduced carrying capacity for the barges and resulting in our LWS-surcharge table to be applicable.

Please find as follows the water levels for yesterday and today:

Sunday, 13.09.2020 at 5:00 hrs: 2.67 m

Monday, 14.09.2020 at 5:00 hrs: 2.64 m

This results for barge departures on both days the LWS scale 1 (2.70 m - 2.51 m). Decisive for the agreed LWS to be applied is the level at 5:00 hrs at the day of departure of the barge.

For up-to-date information and the trend we refer you to the relevant web page on www.elwis.de under "Duisburg-Ruhrort", where the water levels and forecast are recorded and updated automatically.

We will keep you informed during the LWS-situation of any further changes on a daily basis.

Thank you very much for your understanding.
