## Water level | low water surcharge (LWS)

Dear customer,

As reported in our earlier message dated 14.06.2022 the water level at Duisburg-Ruhrort continue to be at a level causing a reduced carrying capacity for the barges and resulting in our LWS-surcharge table to be applicable.

Please find as follows the water levels since Saturday:

Saturday, 18.06.2022 at 5:00 hrs: 2,69 m

Sunday, 19.06.2022 at 5:00 hrs: 2.65 m

Monday, 20.06.2022 at 5:00 hrs: 2.61 m

This results for barge departures on these days the LWS scale 1 (2.70 m - 2.51 m). Decisive for the agreed LWS to be applied is the level at 5:00 hrs at the day of departure of the barge.

For up-to-date information and the trend, we refer you to the relevant web page on [www.elwis.de](http://www.elwis.de) under "Duisburg-Ruhrort", where the water levels and forecast are recorded and updated automatically.

We will keep you informed during the LWS-situation of any further changes on a daily basis.

Thank you very much for your understanding.
