

Rotterdam, 29.08.2022

Water level | low water surcharge (LWS)

Dear customer,

As reported in our earlier message dated 04.07.2022 the water level at Duisburg-Ruhrort continue to be at a level causing a reduced carrying capacity for the barges and results in the application of our Season 3 LWS Surcharge Table.

Please find as follows the water levels since Saturday:

Saturday, 27.08.2022 at 5:00 hrs: 2.23 m

Sunday, 28.08.2022 at 5:00 hrs: 2.17 m

Monday, 29.08.2022 at 5:00 hrs: 2.12 m

This results for barge departures on these days the LWS scale 3 (2.25 – 2.01 m). Decisive for the agreed LWS to be applied is the level at 5:00 hrs at the day of departure of the barge.

For up-to-date information and the trend, we refer you to the relevant web page on www.elwis.de under "Duisburg-Ruhrort", where the water levels and forecast are recorded and updated automatically.

We will keep you informed during the LWS-situation of any further changes on a daily basis.

Thank you very much for your understanding.
