Heavy weather conditions

Dear Sir or Madam,

The ECT terminals as well as the APM terminals and RWG in Rotterdam have pro-actively advised about a possible terminal shut down of today at 18:30 hrs because of heavy weather.

For the moment it's not clear what effect the upcoming bad weather will have on our rail and barge arrivals-/departures for this weekend till next Tuesday and what backlog every terminal might will face if they will stop operations as from Sunday.

Please be aware that we are doing our utmost to minimize the impact to your cargo.

We ask for your understanding in this case of "force majeure" and we are sorry for any possible inconvenience. Thank you very much.

Optimodal Nederland B.V.

Good. Better. Optimodal.
