## “Hollywood” says hello

Hello and good afternoon dear business partner,  
Dear fans of Optimodal Nederland B.V,

It is done!

We are very pleased to inform you that the new and 2nd image film of Optimodal has found its way to the screen and the public.

This project is similar to the 1st film and yet so different.

Impressive music underlines the partly new and fantastic pictures of our industry and presents the service portfolio of Optimodal Nederland B.V.

In order to enjoy the work to the fullest, we strongly recommend the use of a large screen and a Dolby Surround system, as we did for the 1st film.

Our heartfelt thanks go to the partners who support us in making this film possible at all.

With the credits of the film we are happy to announce our supporters.

The following link leads you directly to our You-Tube channel.

<https://youtu.be/7cfwBWIWe20>

We wish all viewers a lot of fun while enjoying the film.

Do not let anything or anyone stop you from linking the film 😊

We wish you, all our colleagues and your loved ones the best of health, so that we can all end these exciting, challenging times together, with optimism and the best possible success.

Best regards,

Your Optimodal Team
