Optimodal invests in increased safety

Dear partners of Optimodal,

The securing of your valuable cargo is very important to us.

Despite the current corona crisis, we and our partners KombiRail Europe and Kombiverkehr have decided to invest in the additional securing of your valuable cargo to make the transports entrusted to us even safer.

We are very pleased to inform you that we have now equipped all 80' wagons with safety bars.

The photos show very clearly that it is now even more difficult for potential interested parties to access your goods, because unwanted and unauthorized opening of the container door on the wagon is now almost impossible.

This is further proof that you have chosen a reliable intermodal partner in Optimodal.

The motto remains: *Good. Better. Optimodal.*

Best regards,

Your Optimodal Team

Good. Better. Optimodal.
