Transition from NCTS to NCTS P5

With the transition from NCTS to NCTS P5, we would like to inform you about what will change for you with regard to the creation of Transit documents.

What is NCTS P5?

NCTS P5 is the new transit system of the customs authorities and the successor of NCTS, the current transit system.

The latest update, introduces changes such as a more complex data model.

The purpose of this update is to modernize and improve the efficiency of transit procedures while ensuring compliance with the latest European Union customs regulations.

When will NCTS P5 go live?

December 20th, 2024, customs will move from NCTS to NCTS P5.

What specifically will change for you:

For the preparation of a transit document, it will now be mandatory to separately list **all 6-digit HS codes** of the cargo in the container in question, including the number of packages involved.

Each additional HS code will be subject to a surcharge as stated in the agreed quotation.

Our Customer Service staff in Rotterdam will be happy to provide you with further information.
