

Geachte

PSA Antwerp is currently operating under extremely challenging and heavily congested conditions. While several factors contribute to this situation, we must implement difficult but necessary measures to ensure continued operations.

These steps are essential to improve the situation for everyone involved.

We will strictly enforce our yard opening time policy (*).

- Containers delivered before the YOT opens will not be discharged.
- We will closely monitor the discharge list and notify you if containers are delivered too early, requesting their removal.
- If we do not receive feedback, we will delete the containers.
- If necessary, containers will be shifted at the expense of the BO.

(*) Yard Opening Time Policy:

- Previously, YOT was communicated 10 days before ETA, with the yard opening 7 days before ETA.
- Going forward, YOT will be communicated 8 days before ETA, with the yard opening 5 days before ETA.

These measures will remain in effect until further notice.

Thank you for your cooperation.
