

Rotterdam, 24.04.2020

Water level | low water surcharge (LWS)

Dear customer,

As reported in our earlier message dated 23.04.2020 the water levels at Duisburg-Ruhrort continue to be at a level causing a reduced carrying capacity for the barges and resulting in our LWS-surcharge table to be applicable.

This morning the level at 5:00 hrs was at 2.70 m resulting in the LWS scale 1 (2.70 m - 2.51 m) to be applicable for barges departing today. Decisive for the agreed LWS to be applied is the level at 5:00 hrs at the day of departure of the barge.

For up-to-date information and the trend we refer you to the relevant web page on www.elwis.de under "Ruhrort", where the water levels and forecast are recorded and updated automatically.

We will keep you informed during the LWS-situation of any further changes on a daily basis.

Thank you very much for your understanding.
